Network Visualizations and Natural Language Processing with Python

1.5: Text Mining

I have completed the homework for Chapter 1.5: *Text Mining* under *Network Visualizations and Natural Language Processing with Python*. I have carefully worked through each question step by step and have pushed all related files to my GitHub repository. You can review my work at the following.

link: [GitHub Repository - 20th Century Project](#).

Thank you for your guidance and support.
